

Grayling Schools to Open Next Tuesday

School for the year 1936-7 will start next Tuesday, September 8, and Grayling's youth will be called back to books and lessons for nine and a half months of varied activity, academic and extra-curricular. A full, well-balanced program, and an expanded and progressive policy is the objective of the school, and this has been kept in mind as preparations for the coming year have been made.

The South Side school has been carefully reconstructed for use, and equipped to give entirely adequate facilities for the Kindergarten, First, Second and Third graders who live on the south side of the river. Two teachers will give instruction in this school, and the re-opening of this building will be a great convenience to students who live

this year than ever before, and the advance enrollment worked out last spring has already lined up most of the expected students. Grayling lost but three teachers from last year's competent staff. Two additional teachers are being added, which will make possible the planned increased school program. The High School teachers are as follows:

Gerald Poor, Grayling, Superintendent.
Willard Cornell, Harbor Springs, Principal.
Frank Bond, Grayling, Science.
Josephine Nichols, Lansing, Languages, Mathematics.
Jessie McDonald, Marquette, English, Speech.
Cecil Roberts, Onaway, Mathematics, History.
Eva Dorr, Grass Lake, Com-

in its area, as well as offering really pleasant and well equipped quarters in which to work. The manual arts department, a long-felt need of Grayling schools will be opened this year, and equipment will be available so that a respectable, worthwhile program may be carried on under competent instruction. The free text-book set-up will be offered for the first time this year in the first eight grades, though students who wish to purchase their own books may do so. The school bought usable books last spring and will be equipped to supply a copy to each pupil in these grades. Back courses will also be furnished to pupils. It is the hope of the school that the cost of books and supplies be as light as possible, and this progressive step is the result.

Besides these new features of the local schools the established services that have been offered in the past will be carried on and strengthened. More elective subjects in high school are available

Roy Milnes Wins Golf Finals

CONTINUES GRAYLING CLUB CHAMPION

Big Program Ready For Labor Day

Again Roy Milnes proves his prowess as a golfer when, again he carried away the club honors at the club tournament that closed last Sunday. Esbern Olson who has just as consistently opposed him in the finals ever since these tournaments began many years ago, was right there again to dispute the right of sovereignty.

For six years Mr. Milnes has held the honors of the club. He has an average score for the season's match games of 41, and in a recent match played a 36-37 game. The course par is 37.

Obstacle Tournament To Feature Labor Day Program

A fitting event, closing the season's special programs, will be had next Monday when the members will clash in an "obstacle tournament." The games will be played in the afternoon and wind up with a pot-luck dinner at 6:00 p. m.

Members are urged to be present for the week-end events, and especially to take part in the Labor day program.

Mrs. Esbern Olson was victor in the consolation match in the ladies golf tournament last week instead of Mrs. Trudgen, who played with her in the finals.

LEGION DRUM CORPS ROYALLY ENTERTAINED AT CHEBOYGAN

Friday night, members of the Legion Drum and Bugle corps and their wives enjoyed a visit at Cheboygan. The Legion corps of that city had arranged Grayling day at the Happyland carnival that was showing there, and although it poured rain all day it cleared up soon enough in the evening so that the scheduled parade was held.

Later in the evening members of the "Thirsty Ten" costumed in all sorts of homely outfits serenaded business places and caused a lot of merriment.

The corps members all tell how royally they were treated and that they had a great time in Cheboygan. They must have liked the town and its people for it was dawn Saturday morning before most of them arrived home.

The Cheboygan Tribune in an editorial had the following nice things to say of the Corps visit:

An Appreciation
Services of the Grayling Drum and Bugle Corps in coming to Cheboygan and cooperating with the Cheboygan corps by marching and playing in connection with the carnival are appreciated. It was a fine inter-city cooperation and good neighborhood. The Grayling members drew a great deal of admiring comment. They won the good will of local people and promoted friendships between residents of the two cities.

The Grayling Corps came here in appreciation of the services of the fine Cheboygan Corps playing at a Grayling festival early in the summer. It came here as an interchange of courtesies. We like these reciprocities of good turns. The American Legion of Northern Michigan is noted for them. All fraternal groups do them. The cooperation and successes for individual city projects which otherwise would be impossible on so splendid a scale. They enrich our life and promote the ideals of service and brotherhood.

The Sunday edition of the Bay City Times says:
Ben G. Wright, publicity director of the East Michigan Tourist association the past two years, has been granted a six months' leave of absence during which time he will become secretary and manager of the recently organized Alpena Chamber of Commerce. He will assume his new duties Sept. 20.

Ben Wright Goes To Alpena

The Sunday edition of the Bay City Times says:

Ben G. Wright, publicity director of the East Michigan Tourist association the past two years, has been granted a six months' leave of absence during which time he will become secretary and manager of the recently organized Alpena Chamber of Commerce. He will assume his new duties Sept. 20.

According to plans Mr. Wright will return to the Tourist association offices late in March.

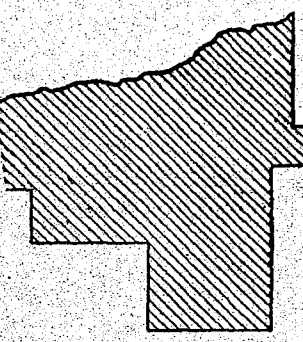

For the past two years he has devoted his time in the promotion of recreational interests of Eastern Michigan and the job he has done must far surpass the hopes of the E. M. T. association officials. He has been able to send out and have published volumes of interesting stories of this part of the state. His articles have appeared in leading newspapers and magazines all over the country.

Photography too has played a large part in Mr. Wright's contributions. Motion pictures too have related the story of East Michigan's vast resort regions. Such pictures have been shown in hundreds of cities throughout the central states and have been in active demand by civic clubs everywhere.

Hospital Overcrowded; Need More Room

The past week has found Mercy Hospital very busy. Every bed has been taken and patients have been placed in halls and in rooms not ordinarily used for patients in order to meet the emergency.

A new nurses home would make room for about 15 additional patients on the third floor. At present the nurses occupy the third floor and since Mr. Walker P. Murphy, through the loyal interest of Mr. and Mrs. Herbert Wolf, so generously donated the complete and most needed elevator, the third floor will be open for patients as soon as a home can be made available for the nurses.

A complete obstetrical department will be a great asset to the hospital. 142 babies have been born in the hospital in the last five years. In a still be able to a great many people who live in the house where they were born.

While the hospital is administered by the Sisters of Mercy, it is as free from sectarianism as disease itself. Out of 2477 patients admitted since Nov. 1, 1933 up to the present time the following denominations were represented as patients:

Protestant	1043
Catholic	574
Methodist	260
No Religion	240
Lutheran	113
Baptist	64
Congregational	38
Episcopal	23
Danish Lutheran	23
Latter Day Saints	12
Christian Science	6
Adventists	6
Church of Brethren	5
Re-organized Church	3
Swedish Mission	3
Greek	2
Mohammedan	1
Unitarian	1

These records clearly prove that Mercy Hospital is a great community enterprise and must be supported by those living in the patronizing territory of the hospital. Its location is such that it serves a wide area. It is to be hoped that the asking will be over-subscribed in the drive that is being put on to raise \$6,000 for improvements and \$6,000 for a nurses home.

Legion Entertained Kiddies With Picnic

Last Sunday Legionnaires and their families loaded into cars and drove to the American Legion camp on Higgins Lake for an all day picnic. The weather during the morning did not act very promising, but by noon the sun came out and it turned out to be an ideal day. Every family brought well filled baskets and all were treated to plenty of lemonade and ice cream. There was ten gallons of ice cream, so all the kiddies had their fill of cones.

After dinner there was a program of sports, with the following as winners:

Potato Race—Vernor Rasmusson won 1st prize and Bobby Bennett, second.
Sack Race—Vernor Rasmusson first and Bobby Bennett second.
Three-legged Race—Hazen Hatfield and Teddy Bennett first and Harold Hatfield Jr. and Bobby Bennett second.
Girls' Race—Marian Kasper first, Betty Hewitt second.
Boys' Race—Vernor Rasmusson first, Bobby LaChapelle second.

A sports program would not making this move for it is assured that that city is going to profit immeasurably from the service Mr. Wright is certain to give them. We know Ben is going to do just as good a job for them as he has for Eastern Michigan, and that's saying a lot.

Ben has been wonderful in assisting in local affairs and we're going to miss his fine contributions to the Avalanche and to other newspapers in the interest of Grayling affairs. We're pleased to know that this change is only temporary and that next March he is to be back with us again.

New Log-Blocks Meeting Approval

"Home Log of Cement" is what Ralph Colleen calls his new cement product for buildings. This is a cement block with a log-effect face, waterproofed and ready for structural use. For the past year Mr. Colleen has been busy perfecting a cement block that, when used for building construction, would give it the appearance of a log building.

That he has been successful is assured by the way that this new product has taken among builders and the public in general. The first building in which the log-face blocks are used was built entirely by Mr. Colleen on one of his Lake Margrethe lots. It is 24 x 26 feet in size. No two pieces of blocks are the same, thus varying the appearance, just as one might expect from logs with their natural bark. The corner pieces are ingeniously planned and the whole effect is very pleasing. The logs are given a waterproofing treatment, which, he says, also makes them frost proof.

The interior of the cabin has fireplace which also is of this same log design, and the chimney has the appearance of one large log. The porch pillars resemble trees. The roof is of slate shingle; the floors and partitions are double, and ceiling is of celotex. Mr. Colleen says that buildings are of easy construction.

His first order for this new building material came from Olaf Michelson who now has a building of Home Log Cement blocks under construction at Houghton Heights. Mr. Colleen has started on regular construction operations, using part of the old Grayling Dowel plant property for the work. He already has a small crew busy at this work, and expects to have to add more men soon.

Mr. Colleen says that the cabin at Lake Margrethe cost about \$800 to \$850 complete with fireplace. This place is open for public inspection at any time. Building contractors from Detroit and other places have made trips here purposely to inspect this new material. Blocks may be made right on the ground where they are to be used, thus saving considerable cost to the builders.

The process is thoroughly covered under applied for patents.

MANY SOCIAL AFFAIRS

The social calendar has been bulging with party news of late with hostesses wishing to entertain while the summer colony is still intact.

Saturday afternoon Mrs. Marius Hanson and Mrs. Harold Cliff gave a very attractive bridge-luncheon at their summer home at Lake Margrethe.

Garden flowers made the cloudy day outside, a very bright place within. Contract followed the luncheon, Mrs. O. P. Schumann and Mrs. Axel Michelson holding the high scores and Mrs. Geo. Alexander the high draw. Out of town guests included Mrs. C. C. Wescott of Ypsilanti, Mrs. Leonard Bridge of Detroit, and Mrs. C. A. Canfield of Royal Oak, and Miss Lillian Norconk of Empire, Mich.

Twenty-six friends of Mr. and Mrs. H. W. Wolf were their guests at a supper party Monday evening at "Wolf's Den", Lake Margrethe.

The party was informal and was given as a farewell to Mr. Wolf who was leaving that night for his home in New York. The crowd finished the affair by driving into town and waving a farewell as his train left the M. C. station.

Tall pink tapers in silver candlesticks on each side of a large bouquet of pink gladioli in a silver basket formed the centerpiece for the long table at which the twenty-three guests of Mrs. C. R. Keyport found their places at a luncheon at Shoppenagons Inn Tuesday afternoon.

The ladies drove to the summer home of their hostess following the luncheon, where five tables were filled for contract. Mrs. Harold Cliff and Mrs. Esbern Hanson held the high score.

Miss Lillian Norconk of Empire was an out-of-town guest.

Hurry! Half price on all Women's Slipper and Sandals, at Olsons.

There was not as large a crowd as anticipated but those who made the trip enjoyed the picnic very much.

A VERY FINE DEMONSTRATION

Michigan Public Service Co. gave a free cooking demonstration to the ladies of Grayling at Danebod Hall Thursday afternoon.

Miss Ila Manchester of the famous Hotpoint Factory, assisted by Miss Dorothy Clark of this company's Home Service department, conducted the demonstration before some fifty ladies.

Miss Manchester showed how

very possible it is to turn out perfect food—by roasting, baking, broiling or surface cookery. Her cakes, biscuits, and oven or waterless cooked meals would surely satisfy the most ardent epicure. And she demonstrated how economically the Hotpoint produced these results.

Mrs. Olaf Michelson was the lucky lady to receive the floor lamp! Mrs. Ernest Hoelsi an oven meal, Mrs. Holger Schmidt the waterless cooker meal; Mrs. Lee Seymour, of Lansing, the broiler meal; Mrs. Frank Bond a loaf of nut bread and Mrs. Nels Olson a loaf of nut bread.

Michigan's Leaders Endorse Judge Edward A. Bilitzke

Harry S. Toy, Justice of the Supreme Court of Michigan, and former Attorney General of Michigan endorses Judge Bilitzke as follows:

"Judge Bilitzke was assigned by me as Attorney General to the most important legal tasks of that office. He has ability, patience, initiative, which qualities, coupled with his great sense of fairness and justice give him the ideal qualities necessary for a Judge."

Paul W. Voorhies, Attorney General of Michigan in 1931 and 1932, endorses Judge Bilitzke as follows:

"Edward A. Bilitzke, now Circuit Judge for the Thirty-Fourth Judicial Circuit of Michigan, was appointed by me as an Assistant Attorney General of Michigan for the term beginning January 1, 1931. He remained with me during the two years of my term of office."

"During that time I submitted to him many important matters and everything assigned to him was handled in a highly efficient and satisfactory manner. I considered him one of my most able and loyal assistants, and in addition I believe that he is possessed of a sound judicial temperament. I recommend him in every way to the voters of the Thirty-Fourth Judicial Circuit."

WHY CHANGE?

When Governor Fitzgerald appointed Edward Bilitzke of Grayling to succeed Judge Guy E. Smith, soon after the death of the latter, it was for the latter's unexpired term. The law, however, requires that in case of an intervening election that the office must be voted for.

Thus it is necessary that Judge Bilitzke must run the gauntlet in the primary election for nomination. Accordingly it is up to the people as to whether or not they wish to sustain Governor Fitzgerald's appointee for this important position.

One thing with Mr. Bilitzke, he is eminently qualified for circuit judge. His fine, ethical training, his broad experience in courts from the lowest to America's highest tribunal—the supreme court, his natural judicial temperament, his sense of fairness, his keen perception of the matters that confront him and his indefatigable energy and ambition for work, all make him an ideal type for circuit judge, and are characteristics that we believe are destined to carry him to even higher judicial realms.

We understand that two facts were important in his selection by the governor—first was his eminent fitness for the position, and second, no northern county of the district has ever been privileged to provide a circuit judge, and should be considered.

For over a quarter century Judge Nelson Sharpe served in that capacity and his home was in West Branch; and for the past 18 years Gladwin county was the home of the circuit judge—Judge Guy Smith. The situation as it now stands Mr. Bilitzke, whose home is in Otsego county, has to fight it out in the primary election with one Probate Judge John C. Shaffer, whose home is in Gladwin. And on top of that another Gladwin attorney is a candidate for that office on the Democratic ticket.

Now doesn't it look just a little greedy on the part of the attorneys of Gladwin county to want to hog this position? It does to us. There is no question as to the qualifications of Judge Bilitzke for that position, and we cannot believe that the voters of these northern counties are going to fail to vote for him in the primary election. At the very least he should be privileged to complete the unexpired term of the late Judge Smith, for which he was appointed. So why change at this time?

ELECTION REMINDERS

Saturday, September 5th, is the last day in which voters may register for the Primary election of September 15th.

Voters of the City of Grayling may register at the city hall at any time up to 8:00 o'clock next Saturday night.

Voters of Grayling township should register with Dan Babbitt. His office will be open until 8:00 P. M. Saturday.

All voters of Grayling township must re-register in order to vote at the coming elections. At former elections the poll list comprised voters of the entire township, including the village of Grayling. Since Grayling has become an incorporated city, it is no longer a part of the township unit. This explains the reason for a general re-registration of voters of Grayling township. This condition does not affect the poll list of the city of Grayling for that is provided for by the village poll list.

George Wilson of Tecumseh and Oscar Shantau of Stony Ridge, Ohio, are visiting at the George Burke home. Saturday Mr. Burke will accompany his niece Joyce Burke, who has spent the summer here, to her home in Toledo, accompanying home Messrs Wilson and Shantau also.

Mrs. Celia Granger returned home, Tuesday, after spending ten days vacationing with two friends, Mrs. M. Bowman, of Grand Rapids, and Mrs. Irene Shields of Kalamazoo. The ladies enjoyed a cottage located at Green Lake. They accompanied Mrs. Granger home Tuesday and are remaining until today. The three ladies have been friends for over 40 years.

Mr. and Mrs. Herman Sorenson and daughters Ilene and Jean of Detroit, visited last week at the home of the former's mother, Mrs. Victor Sorenson. Miss Ilene celebrated her birthday while here and was guest of honor at a six o'clock dinner at the home of her uncle and aunt, Mr. and Mrs. Waldemar Jensen. A birthday cake holding 12 candles centered the table. Miss Ilene received many lovely gifts and was very much pleased to celebrate her birthday in Grayling.

Mr. and Mrs. James Bugby and Miss Eva Swanson, drove to Alpena Monday.

John L. McLachlan of Chicago visited at the B. J. Callahan home Sunday. Also Frank Brady and son Donald of Detroit visited them.

Miss Louise Sorenson left, Sunday, for Port Huron where she is a guest of Earl Hodgins. Later, she plans to visit relatives in Detroit.

Mrs. Richard LaPointe and son Philip returned to Muskegon Wednesday after spending the summer here. Mr. LaPointe who plays with June Kimble's orchestra at Spike's Beer garden, will be joining them after Labor day.

Hog Calling Contest Conditions

Perhaps the most humorous aspect of the Michigan State Fair is the hog calling contest which will be held in the grove on September 11th, at 2:30 P. M.

Fifteen dollars will be awarded to the three highest scoring contestants as follows: \$7.50 to first, \$5.00 to second, \$2.50 to third.

All Eligible

We know no East, no West, Any farmer in the wide world is eligible. No entrance required. The following percentage will prevail:

1. Volume, loudness or carrying capacity of voice—30 points. Volume is necessary to reach the ears of the hogs, especially if they are in the back eighty, and the wind is blowing from the wrong direction. It also enables the neighbors to know one is at home and "doing the chores."
2. Variety, 20 points. A varied appeal is always more effective than a monotonous, uninteresting call. Variety in calling might be correlated with a variety of feelings.

Charm Counts

3. Charm or appeal to the hog, 20 points. The hog caller's voice must have the ring of sincerity and honesty. It must carry conviction to the porkers or the calling is not a success. Truth will out.
4. Originality, 10 points. Originality creates interest. The hog should be able to distinguish its master's call from those of the neighbors.

5. Clearness, or musical quality, 10 points. Happiness aids digestion and hogs enjoy music. A clear musical call will bring them in happy and light-footed to eat with more enjoyment and more profit. Singing school lessons thus are not wasted.
6. Appearance and facial expression of caller in action, 10 points. Facial expression and general appearance of caller are the surest ways of judging the extent of the effort.

Same for Husbands

Practically the same conditions which govern the hog calling contest will prevail in husband calling contests.

Chips

By Jack Redhead

With much fanfare and trumpet the annual carnival of the River Rats got under way Sunday. For the benefit of those who are not familiar with this rowdy affair we hasten to explain that each year this prize-winning bunch of misguided savages set aside a day in which to take a trip down the river and have a general helluva time. More or less like the streetcar conductor who took a long ride on his day off, in the main the bunch is made up of river guides and their families. Any way the trumpeting was done Sunday by some leather-lunged individual with a conch shell which could be heard for miles.

As the party swung past our dock we recognized such "old familiar faces" as Ted Stephan, Frank Serven, Chris Hoelsi, Amos Hunter, and many, many more. In most cases wives and families were snugly tucked into the canoes, and many lunch baskets bespoken of a sumptuous lunch to be enjoyed later. Bill Christenson, as usual was maneuvering his craft to be among the best looking girls, and how one man can make so much noise we are at a loss to know. Cheery greetings were on every tongue, and insistent invitations to join the party were hard to turn down—Maybe next year we can make it. All hands assembled at the Lower White Pine landing for lunch, and were joined there by Mr. and Mrs. Opland of Detroit.

Mrs. Opland entertained the party with many selections played upon her accordion, and everyone joined in vocally. Need we add that every one had a wonderful time?

The usual crowd flutters around Henderson's this week, many of last week's guests are staying on, and many new faces have appeared. Among these are Mr. and Mrs. Poole of Akron, Mr. and Mrs. Morrison, of Armada, and Mr. and Mrs. Dunseath of Pontiac. The latter two mentioned are nieces and nephews of Mrs. Henderson.

As we called, a hot game of "Barnyard Golf" was in progress between Mike Benedict of Port Huron, and Sterl Henderson. Sterl went down in defeat, and Mike walked off with the steam-heated cuff links.

Our correspondent and members of his household were privileged guests at The Owl's Roost (Mrs. Ireland's to you) last week, where a star-gazing party was in progress under the able direction of Max J. Ireland.

Max knows the ins and outs of the stars like nobody's business, and can tell in a flash if one of the little fiddlers gets out of bounds. He has built a sort of Bazooka out of two rear vision mirrors and a length of stove-pipe, through which he peers and allows others to peer, and the Venus' enjoy no privacy whatever.

Henry Smith III and his cousin Franklin Smith made a record run to Oscoda last week via canoe. Three days running time is a mark to shoot at for this trip. The boys report that they were set upon the first night out by a wild cat, which, when they turned a flashlight upon it, promptly charged with bared fangs and much growling. Thirty seconds was all that were required for Henry to strike camp and

be off in the canoe, Franklin appearing later that day from beneath his sleeping bag which Henry had packed in haste. They describe the marauder as "A short, fat fuzzy job, with a pointed nose and ears, and dark streaks running back from its eyes, and having a ringed tail." In passing we wonder if this experience had anything to do with the running time for the trip.

Mr. and Mrs. Henry B. Smith entertained Mrs. Grace F. Goodwin and Mrs. W. L. Clements at their camp over the week end. The party left Monday for Bay City.

Just wait 'till you see the new school bus recently acquired by the Feldhauser district. A twenty-four passenger job, and the latest thing of its kind obtainable. We could write a story on its features, but suffice to quote Bill Misner (the salesman): "Your children are safer in this bus than at home in bed." Now what we need is some responsible man to drive it. And may we add that whoever the driver may be, he should be given full authority over the children while in transit. In the past there has been a lot of rowdiness and loose conduct among the children being transported, to say nothing of bullying and profane language on the part of some of the older ones. Our new driver should crack down on this sort of thing from the start, and in no uncertain manner, showing no favorites.

We hasten to congratulate Ben Wright for his appointment at Alpena although we feel that his going will leave a marked void in and about Grayling. Sometimes we wonder if the people in this neck of the woods realize how much Ben has done for us. We wish him all kinds of luck in his new line of endeavor, and hope he will continue to drop in on us occasionally. We wonder if our village fathers didn't slip a little somewhere. Anyway, success to you, you old Redhead; I'll come up and help you pick the queen.

A gay affair was held at Ted Stephan's place last Saturday night in celebration of Ruth's birthday (she wouldn't tell us which one).

Assembled before their roaring fire were Polly and Mike, Ted and Ruth, and Marge and Jack. While the girls were in the kitchen preparing savory dishes of curd and whey, the warriors recounted many hair-raising experiences while on the hunt. Many noble bucks fell to their unerring aim; and later when the girls joined the circle, the coffeepot was much in evidence. We have no way of knowing how much chop suey was consumed, but if you have been fortunate enough to sample chop suey, I'm sure you may have some idea of the havoc that was wrought. When Mike came up for air he looked as though he had swallowed a watermelon whole, and as for Ted, well, he didn't come up at all. Jack just went the limit and wished for emergency bulkheads in both feet—Wot a feed!

Greatest Race Horses

Although Eclipse, foaled in England in 1764, is considered to be the greatest horse in racing history because he won every one of his 20 races and sired 344 winners, the "unbeaten" record belongs to Klusem, foaled in Hungary in 1874. This mare, writes Arthur C. Norris, Chicago, Ill., in Collier's Weekly, won 57 consecutive important races, an achievement never equaled.

what Irvin Cobb thinks about:

The Campaign Blues

SANTA MONICA, CALIF.—What with Roosevelt taking over the ancient Hamiltonian theory of centralized authority and Landon promising to restore the Jeffersonian principle of state sovereignty the campaign is in "high."

What with Farley undertaking to organize the Negro-voters of the north for Roosevelt and the other side claiming to be hopeful of carrying Florida with the aid of white votes; what with Andy Jackson turning over in his grave and James G. Blaine stirring fretfully under the sod, it seems the most appropriate campaign selections would be for the Democratic orchestra to render "John Brown's Body" and the Republican quartet to sing "Bonny Blue Flag," with special emphasis upon the stirring line, "Hurrah, Hurrah, for Southern Rights, Hurrah!"

Doping the Geesees.—**DESPITE** revelations that some of America's most prized race horses have repeatedly been doped, one of the state racing boards reinstated a trainer found guilty of this foul and crooked practice. So our commissioner to the international anticropote conference at Geneva is disgusted.

Maybe because I'm hopelessly old-fashioned, I still prefer that a horse should be trained on the turf and not at a drug store. Nowadays the fellow who prowls the paddock just before a race is liable either to go to sleep suddenly or go to bucking. It depends on whether the geegee he sniffs has been drugged to lose or drugged to win.

Irvin S. Cobb.

Hollywood Dog Days.—**TOURISTS** to the Hollywood sector come during a dullish interlude. The diary of Miss Astor has been closed, and the next chapter in the love-life of John Barrymore has not been opened.

It might be said for Miss Astor's output, before the court shut it off, that it was well-written and caused the public eagerly to await further disclosures. Certain parties may have gone out of town, but they all left word where the paper was to be sent. Hereafter, for a series of such purely personal confessions, it might be well to begin each installment like this: "May it please your honor and my precious pettyniks."

Praising John Hamilton.—**I** HEARD John Hamilton speak to a selected group of his own folks, and please don't laugh when I say that the individual he most reminds me of—in engaging personality, in sound sense—is the rival national chairman, Jim Farley.

Without comparing these two as to past records or future prospects, I figure they're temperamentally alike in various ways—notably in not getting unduly excited or nastily vindictive.

In his talk Hamilton did not declare the American flag was in danger, did not implore anyone to save the American home. He didn't call the Democrats knaves or idiots. He didn't claim for his side a monopoly of patriotism. Quite calmly he told his hearers what points he thought should be stressed by his party in this campaign—and poked fun at himself while poking fun at the other crowd.

Congressmen Versus Taxes.—**A** GAINST my better judgment, I'm trying to be cheered by the announcement of the present majority leaders in congress that, looking forward to the next session, they behold no new taxes ahead. But, after election, when the lads look closer, they'll probably be able to behold quite a few.

That's why a balanced budget is like the idea of santa claus—something everybody talks about, but nobody ever expects to see. Excepting when a campaign is on and the voters are sort of flinching their galled backs under the load, a favorite pastime of legislators, wherever found, is thinking up more taxes to go along with the taxes they've already thunk up.

They resist the craving for just so long, and then they notice some previously overlooked dollars hiding behind the baseboard, and then—well, you might hire a henhawk to guard your henhouse, but could you depend on his word?

Roscommon Boasts Resort Attractions

(By Ben G. Wright)

On the Shores of Michigan's Largest Inland Lake—You'll never be forgiven if some week end soon you don't pile the family into the transportation and guide the gang up Roscommon way for a couple of days browsing around two of Michigan's largest inland lakes.

It's a great place for the week end or the summer or fall vacation and if you don't believe it, ask Gene Matheson whose chief concern when not sitting in a comfortable duck blind is publishing the Roscommon Herald.

Gene swears by Roscommon county and so did we after a trip through its diversified recreationland.

Roscommon is probably best known to transient tourists for the advantages offered along the shores of Houghton Lake, Michigan's largest inland jewel, and among private families of southern Michigan for Higgins Lake, about as pretty a body of ever changing blue water we hope to find.

It's thirty-one plus miles around Houghton Lake and while stopping at the Rustic Tavern on its south shore, we had only to speak and we were favored with all sorts of finny specimens, including walleyes, bass, perch, blue gills, sunfish and to top it off, an eight and a half pound great northern pike which was just about all that fellow from Cincinnati could do to support it by one arm while we "shot" it (with the camera).

Higgins keeps the folks busy catching perch with an occasional pike coming up on the rod. And while we've said it's the private families who best know blue Higgin's shores, we weren't forgetting for a moment that very lovely state park and the fact that there are half a dozen resort hotels there.

The state park boasts a swell beach, lots of beautiful pine, oak, elm and a view of one of the rarest portions of the lake. And on a clear sunny day there seems to be a dozen different shades of blue in that water.

On one side of the lake is an interesting side-trip, the Higgins Lake State Forest Nursery where they grow a heap of pine trees every year.

The State Forest, south of Houghton Lake, opened last season for the first time in many years to deer hunters, involves 44,000 acres of very fertile game cover. Some beautiful big bucks were taken from the section during the 1935 deer season.

And about that same time of year they're concentrating on ducks in Michigan's wildfowl haven, Houghton Lake. Lots of the resorts remain open to care for the hunters, who are towed out to the blinds in a boat and not seldom come home with their limit of the feathered birds.

Then, there's a rare stretch of that excellent trout water, the AuSable, traversing its course through Roscommon County. It is the South Branch from which they take brooks, browns and rainbows. And it's here they start on one of those delightful canoe voyages "down the AuSable." It's an inspiring trip from Roscommon to the junction of the main stream and farther if one cares to go.

Lake St. Helen lies between Roscommon and West Branch and here is another popular body of water about seven miles long offering bass, pike and the panfish in no small quantities.

The roadside parks, one of which will soon be completed on the banks of the AuSable at Roscommon, are proving popular in the county and there are any number of them on U.S. 27, M72, M76, M55, M18, all of which lead into the area as does a railroad and busline.

Partridge account for a reasonably heavy concentration of bird hunters in Roscommon each year and they're still smiling up that way about the two neophyte hunters who came up from Detroit, asked a gas station attendant where the deer were and he, in a gesturing manner, said, "Oh, just drive a hundred feet back off U.S. 27 anywhere and you'll see 'em," and how they did just that, returning a few hours later, each with his buck.

So, it was Roscommon, last week, tourist trippers, and you won't go wrong for a moment up there. There's everything you'd want at every price and about as nice a section of the vacation country you'd hope to choose for the week end or vacation.

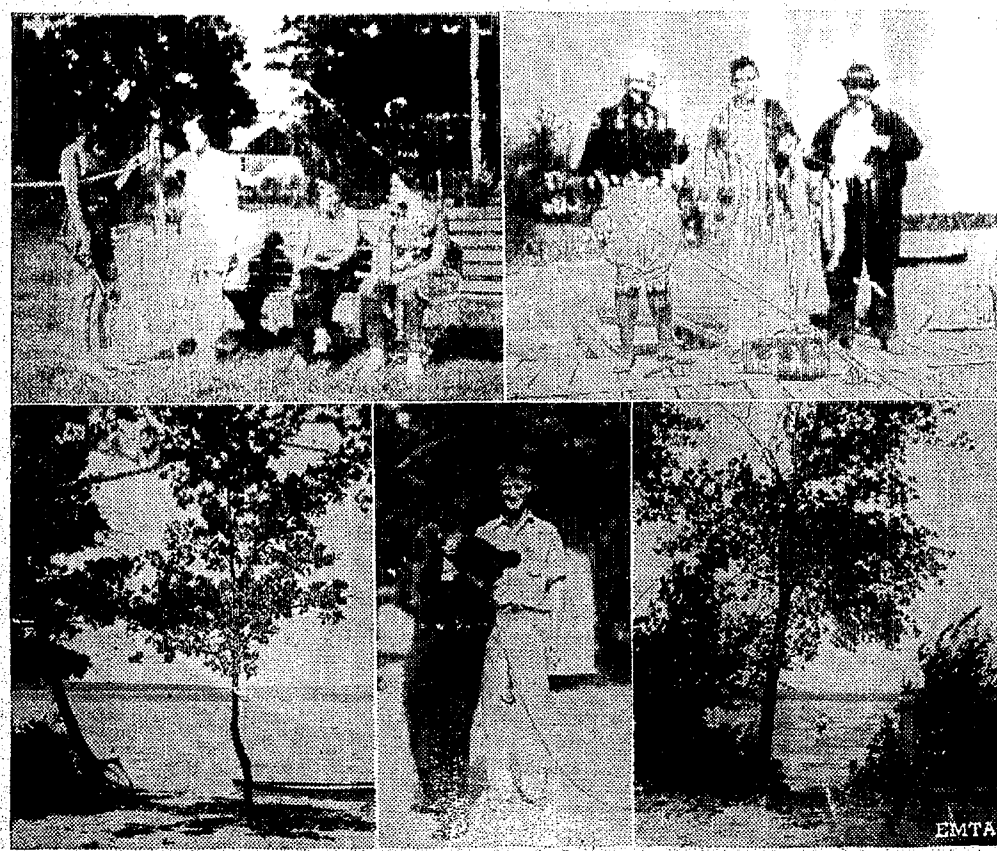

Write the Houghton Lake Chamber of Commerce for the vacation folder they are distributing.

Britain-America Air Route—The shortest air route between Britain and North America is over the ice-cap of southern Greenland.

The Union of South Africa—The Union of South Africa includes the provinces of Cape of Good Hope, Natal Transvaal and Orange Free State. Southwest Africa, formerly German territory, is administered by the Union under a mandate from the League of Nations.

The two Rhodesias, North and South, were taken over by the British crown from the British South African company, which held a royal charter of these two colonies until a few years ago. British East Africa, which consists of the Kenya crown colony, the Uganda Protectorate and Tanganyika, which was formerly German East Africa, stretches from across the equator and south to the Union and South Africa.

SCENIC, SPORTY ROSCOMMON COUNTY

Possessor of the State's two largest inland lakes, Roscommon County adds much appeal to its already diversified land of play. Houghton Lake with its wealth of resorts and cottages and Higgins Lake with its State Park and a variety of private summer homes are among the finest and most appealing in the resort country.

Ginseng Not Cultivated

Ginseng is not cultivated; it grows only in the wilds and in its growing state it has the appearance of a human being. Its chief use is as a remedy for short breathing. Many pious people claim to have seen the dying survive after using it. One variety of ginseng grows in this country, but it does not have the value or medicinal quality of that which is imported from China.

Annual Harvest Festival At Manton

Manton, Sept. 2.—For the 12th successive year, Manton will hold its annual Harvest Festival, with a day and evening program next Monday, Labor day, that will draw thousands of visitors from many points in this section of the state.

An almost continuous program of events is scheduled for morning, afternoon and evening, including sports, ball games, water fight. Many concessions have been booked including Carlson's midway rides and attractions. Manton and Mesick High School bands will furnish music.

More money is being spent for entertainment this year. Henry H. Lueders will present his 1936 Harvest Day Frolics afternoon and evening on the free act platform. Ten Years to Build Statehouse

Ten years were required to complete the construction of the Indiana statehouse. Begun in 1878, it was completed a decade later at a cost of nearly \$2,000,000. The structure is built of oolitic limestone and its interior is finished in marble. Situated near the heart of the city, says the Indianapolis News, the building and grounds extend over more than eight acres of ground.

Mr. and Mrs. Rasmus Hanson arrived home Sunday morning last from a visit at their old homestead at Island Falster, in Denmark. They were accompanied by Mr. and Mrs. Robert Bay and son, whose homes are in the state of Montana.

Frank LaMotte and family, of Shingletown, are here visiting his parents after an absence of six years.

About 130 acres of land on the south shore of Portage Lake, that are to be used as maneuver and parade grounds for the Michigan National Guards, are well under way of being cleared. Also work on the construction of the branch railroad of the Michigan Central has begun. The United States War department is erecting a residence for the caretaker of the grounds and properties. The building is located on a high knoll overlooking the lake. There is also in course of construction a warehouse, size 56 x 150 feet. The warehouse is being built under contract of Niels C. Nielsen, of this city. The brick for the warehouse is made in Mantec by the Mantec Brick Co. and the lumber used is from the R. Hanson & Son's Co. of this city. The work on these two buildings is being pushed rapidly. Mr. Nielsen says that 100,000 brick will be required for building the warehouse, and 125,000 feet of lumber. Also 234 barrels of cement, 100 barrels of lime and 125 squares of shingles. Ray Wedge, of Flint, is in charge of the brick work and is being assisted by E. H. Ketzbeck & Sons, of Kalkaska. Captain Wm. Case, of Owosso, who is to be the official caretaker of the grounds is also at the reservation looking after the work.

THE LANSING LOOKING-GLASS Robert Perkins

CIVIL SERVICE legislation to govern the appointment of state employees, as advanced so enthusiastically by Governor Fitzgerald, has achieved new and important support. Carlyle Gray, chief patronage dispenser here for the Republicans, recently amazed political observers when he cast precedent to the winds and came out "one hundred per cent for the Governor's civil service plan."

Gray, who passes out almost all of the state jobs, and whose office would be one of the hardest hit by the Civil Service set-up, declared that "there comes a time in the life of every government when progress asserts itself in favor of improvement. That time has come, once again, in Michigan. In my opinion Civil Service would be a definite step forward, and we must not let party politics jeopardize efficient and economical statecraft."

A BIG LAUGH climaxed what promised to be a rather grave incident at Jackson prison recently. Governor Fitzgerald and his party were there to award graduation certificates to the new class of student guards, under the Fitzgerald merit system. The ceremony was about to open, when an alarm sounded—a prison farm inmate was missing. The class was dismissed temporarily, but returned shortly to receive certificates and congratulations from the Governor. They had discovered the missing inmate snoozing in a barn.

STATE OFFICIALS in many state capitals are beginning to sit up and take notice of some of the relief figures which are being published currently in the New York Sun. Here is a sample:

"President Roosevelt has taken \$97,450,793 of the money of the working people of other states and dumped it into the State of Montana, allegedly for the destitute of that state. Montana is a farming and mining state."

"Montana has a population of 531,000. Montana in 1935 increased her automobile registration by the astounding percentage of 16.7. With 149,712 motor registrations she averages better than one car to each family."

"Montana's autos go up 16.7 per cent in a year! Massachusetts isn't able to add a single solitary license plate! Why? Because she has to help pay Roosevelt's debt to Burt Wheeler and Bruce Kremer."

This is strong talk, but I meet many around the capital who say it is none too strong.

ALL WAS QUIET about the old statehouse the other afternoon, so I found myself drawn to the basement museum... there to look around a bit at the historical collections of this-and-that, and

found myself quite amazed at some of the offerings. It struck me that we Americans are collectors at heart... an odd but harmless pastime, generally. Included among the exhibits was a piece of the patchwork quilt under which General Robert E. Lee slept the night before his surrender... April 9, 1865. I wondered who grabbed the General's quilt, and I wondered whose hands had so painstakingly put it together. In another case I discovered an order, written in longhand by General Washington, addressed to a county sheriff, ordering the release of a military prisoner "at the urgent solicitation of several of the Selectmen and respectable inhabitants of the town of Newport." And in yet another case I viewed a time-stained floral wreath, within a glass frame... and the little glass thereon revealed that this wreath had rested on Abraham Lincoln's casket while the Great Emancipator lay in state.

DICK SMITH, a State geologist, told me the other day that the oil and gas industry is well established in Michigan. "It will be here for a long time," said Dick, "and it offers a field for investment, too... but if you decide to invest in oil, first investigate the company and don't—by any means—put all your eggs in one basket."

A LITTLE TOWN in Michigan grows more and more excited day by day... and the little town is Alma... for on September seventh Col. Frank Knox, Republican vice presidential nominee, will arrive there to speak at the homecoming celebration of Alma College. Knox is well known to Alma as the captain of the first college football team, as a resident of the town, and as a graduate of the college. Welcoming back the Michigan boy, who is making important political history, will be a crowd estimated in excess of 30,000.

BRIEF BITS: Though New York City is 600 miles from Lansing, capitalists may now commute between the two cities in four hours. A Pennsylvania Airlines transport takes them to Cleveland, where they transfer to a United Air Lines plane for the metropolis... General Bill Doyle, secretary of the State Department of Labor and Industry, steps out of that job in September to take an executive position with A & P... replacing Bill will be Col. John Boer of Muskegon... Oscar Olander, State Police Commissioner, urges that autoists forsake their cars in favor of taxicabs, after their gin parties. It's safer.

Freddy, who? Freddy for a date let me know.

Knock! Knock! Who's there? Carl.

Carl, who? Carl-ina Moon, keep shining.

Knock! Knock! Who's there? Ken.

Ken, who? Ken I sleep in your barn tonight, mister?

After he has practiced tossing about a few more 32-piece dinner sets, we believe that "Swede" Swanson, of Blackie's Tavern, will be in condition to join up with the Tigers and show Rowe and Bridges just how it's done.

Irene Swarthout, of Shoppingtons Inn, is sporting a pretty "nifty-looking" ring on the usual third finger! No exception to the usual rule—Irene is going about in that traditional pre-nuptial trance. He's none other than the lad from '72.

"Car ferry" Jake Mathews, of the Hanson Cafe, spent Tuesday evening at Frankfort, where he communed with a romantic moon over the blue waters of Lake Michigan. Since that time Car ferry has been roaming about in a dazed condition. Although details have not yet been disclosed, they promise to be of great interest to our readers.

Watch for the opening date of the incomparable match between "Two-fisted" Rudy Harrison, Grayling's prize pugilist, and Sailor Huddleston's pet bear, "G. A. L." The match proves to be v-e-r-y interesting as Rudy has given his oath to win by a knockout in three rounds. There is the possibility of a "follow-up"

fight between Harrison and Huddleston. Get your tickets from Biddie Bishaw, who seems to be holding the stakes.

If we may believe rumors—Roy Trudgeon most certainly celebrated his birthday in a big way, one day last week. According to reports, this member of the Hotel personnel, together with Ray Clement, embarked on a pleasant little fishing trip on the lake—with disastrous results. We hear they returned home tired and hungry with the final summing up of no boat, no fishing tackle, and a most-embarrassing explanation. Roy says, "Anyway, it was lots of fun up until the time the boat capsized!"

Jim Bugby is burning a lot of the old midnight oil these days—trying to think up ways and means of making his cellorette a most extraordinary one. He has already begun work on the project and judging from the amount of sand accumulating on the outside of the residence, we are wondering if he is making a cellar or burying a good-sized elephant. Some of the local lore are hoping that Jim will throw a beer and ale party when the construction work on his cellorette has been completed. If such is the case, it is expected that Biddie Bishaw will do the "pouring."

Topeka, Kas.—Listing seven reasons for his decision, Col. Henry Breckinridge, New York Democrat who ran as a candidate for President in the Maryland primary, asserted here he would support Landon and Knox in the Presidential campaign. Before announcing his position, Colonel Breckinridge paid a surprise visit to Gov. Alf M. Landon.

Colonel Breckinridge prefaced his reasons for enlisting under the Landon-Knox banner by declaring that the machinery of the Democratic party had "been seized by a group of men who had repudiated every living principle of the party and subverted the Constitution of the United States."

"Governor Landon's word is good," said Colonel Breckinridge. "He will perform his promises, he is direct and he has no hidden purposes."

Probate Judge John C. Shaffer of Gladwin was the principal speaker at the Kiwanis meeting Wednesday. He discussed the matter of states rights. He began his discussion by relating conditions as they existed in the early 17th century and how it was that kings and rulers for their own special advantage, usurped the rights of others. The dictation of government by a central power can lead only to the red flag of communism or socialism, or the yellow flag of dictatorship. It was a very interesting address and enjoyed by the members.

Mrs. Elizabeth Foley and Mrs. Charles Amidon attended the funeral at Otter Lake last Thursday of their brother, Linus J. Bradley, age 66 years, who passed away in Flint, Aug. 25. Mr. Bradley was a resident of Crawford county in the early 70's when his parents moved here in two covered wagons from Darroville, Ohio. He helped his father cut the first road out from Grayling to the South Branch bridge, and played an important part in the county's early life. At the age of 15 he helped to build the late Thomas Wakeley's log barn.

The marriage will take place next week.

Mrs. Henry Bousson and Mrs. David Montour attended the funeral of their great nephew, Edward Meyette, at Pinconning, Monday morning. He was 19 years old and the son of Mr. and Mrs. Louis Meyette, and the latter who was formerly Anna Gendron, resided in Grayling many years ago. Surviving besides the parents are two sisters and two brothers, Mrs. Clark Kerr, Irene, Lawrence and Joseph.

After being brought to Mercy Hospital the young man was removed to a Detroit hospital where it was found necessary to amputate his arm, and he passed away the following Sunday night. Central Lake was his boyhood home and his parents reside there.

Frederic Starts Economics Group

At a short and interesting meeting in Frederic Friday afternoon, nine women organized the first Home Extension Project Group in Crawford Co. Alice Hertzler, District Home Extension Agent, discussed Home Extension work and the Clothing Project which is available to all those interested in Crawford Co.

Mrs. Roy Newberry and Mrs. Ace Leng were selected to be the leaders of the group. Mrs. Wm. Beach was chosen for the chairman; Mrs. Edith Payne for secretary-treasurer; and Mrs. Lee Crandall for the recreational leader. Others who are now enrolled are Mrs. Olive Marshall, Mrs. Ethel Weinkauf, Mrs. Gladys Kruse, and Mrs. Merle Patterson.

Other contacts have been made in the county which shows interest among those of other communities.

The Clothing Project will consist of five lessons, one each month beginning in October. The subjects of the discussions are as follows:

1. This year's Clothing problems. (A study of fall styles and trends and their adaptation to individual needs, both in buying new clothes and in reviving those of last year).
2. How to choose becoming colors and designs.
3. Accessories to complete the costume. (Including the making of a slip cover purse).
4. Foundation garments and posture.
5. Up-to-date construction Processes.

This project is sponsored by the Michigan State College and will be organized within the county by Alice Hertzler, Home Extension Agent, and Arthur Glidden, Agricultural Agent.

There were 877,377 horses on Michigan farms in 1935, as compared with only 30,144 in 1840. Who says the horse is disappearing? Likewise, there were 1,100,219 sheep grazing in Michigan pastures last year, in comparison with but 99,618 in 1840. Michigan's importance as a sheep raising state is continually increasing.

The operations of over 800 insurance companies, doing business in Michigan, are supervised by the State Insurance Department.

Don't forget that "Bill" Green's "10c An Acre Bill" has saved Crawford County Taxpayers thousands of dollars in taxes. By reason of his bill the townships and school districts of the county have received from the State, \$36,000.12, tax on State controlled lands in this county. Other northern counties have likewise benefitted through his bill.

Since 1931 a bill has been introduced at every session of the legislature to repeal the bill but through Mr. Green's efforts it has been retained. Keep him on the job.
